### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Abstract, Line 9: Replace the verb "is" with the word --are--.

2. Claims 1-15 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Several inventions contain both starter circuits and kill switches to operate a vehicle. The anti-theft device for water vehicle taught by **Kanno** [U.S. 6,582,261] contains both a starter switch and kill switch. However, the circuits are not combined into a single key switch. Each independent claim of the application mentions the electronic key as seen in the prior art, but nowhere is this used for continuous operation of the engine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Kanno** [U.S. 5,144,300] teaches a starter switch and kill switch combination.

**Yoshida et al** [U.S. 5,343,077] comprises a lock actuator and operation switch for a vehicle.

**Hinkle** [U.S. 5,396,215] includes a transmitter for operation of a vehicle.

**Yoshida et al** [U.S. 5,595,257] provides a control apparatus for releasing and unlocking an engine.

**Allen et al** [U.S. 6,366,198] includes a transmitter to be carried by an operator for a vehicle.
